General terms and Conditions of Business of Rottner Tresor GmbH

1. General provisions and scope of application of these GTC

All deliveries, services and offers to our customers are made solely on the basis of these General terms and Conditions of Business (GTC). We shall not accept terms and conditions from the customer, which conflict with or differ from our Terms and Conditions. They will also not be accepted if we do not explicitly reject them after receipt. Deviations from these General terms and Conditions at our account are only effective if they are confirmed by us in writing.

2. Offer and contract conclusion

All orders directed to us require our written confirmation to become effective. The content of our confirmation is solely applicable. Drawings, illustrations, dimensions, weights and other performance data are only binding if this is explicitly agreed upon in writing.

3. Partial deliveries

We explicitly reserve the right to make partial deliveries in as much as this is reasonable, taking the interests of the buyer into consideration.

4. Prices

Value-added tax to be added.

The prices quoted by the seller refer exclusively to the goods, performances and other services quoted in the offer. If the purchaser wants to deviate from them, then the seller will adjust prices accordingly.

5. Contract conclusion

After a time period of six weeks after contract conclusion, the seller is entitled to adjust the prices for the following reasons:

- Significant changes in the exchange rate for imported goods or special taxes and fees, which are charged by law.
- Increases in costs due to official administrative measures.
- Increases of labor costs and increased material costs.
- Increased transportation costs (if freight is included in the price of the offer)
- Accelerated delivery as well as any additional requests by the customer to which the seller agrees, such as changes of delivery instructions and times of availability, quantities, format, or similar specifications in reference to goods, performances and other services.
- Delays, for which the purchaser is responsible as a result of his instructions or failure to provide the required instructions.

6. Delivery

Delivery is made by freight, mail or rail for the account and risk of the purchaser; the purchaser carries the risk even if post paid delivery is agreed upon.

The goods are not insured by the seller. Any damage during transport must be immediately reported to the freight company, postal agency or rail agency.

For required transport to different stories (steps up or down as well as transport over steps into buildings) consult our transport service.

7. Delivery and time of performance

The delivery dates and times of performance noted by us are strictly non-binding. The time of delivery for ordered goods starts from the day of the order confirmation and ends the day the goods leave the company. If the customer requires changes after receipt of our order confirmation, then the time of delivery starts only after our written confirmation of the change order. We are authorized to make partial deliveries and partial services. Acts beyond our control authorize us to delay the delivery or service for the duration of the hindrance or to withdraw in full or in part from non-completed parts of the contract. Acts beyond our control include all circumstances which significantly complicate the delivery / performance or which make it impossible, such as sovereign measures, strikes, lock-outs, operational problems (such as fire, lack of energy) as well as restrictions of transportation routes, regardless if these occurrences happen with us, the delivery plant, a transport carrier or a third party. In this case, the customer can request an explanation, if we intend to withdraw or if we will be able to deliver within a certain suitable time frame. The customer may withdraw after a statutory time period as required by law insofar the goods / services are not reported to be ready to be shipped or be met by the deadline.

8. Payment

The amount of the invoice is payable net within 30 days from the invoice date or within 8 days from the invoice date with a 2% discount insofar payment in cash without discount has not been agreed upon. For payment delay, 12% interest is charged. This also applies for partial deliveries.

9. Data storage

We hereby notify you that we are storing and processing your data in our computers – in as far as necessary for business and permissible within the framework of the Data Protection Act (§22 DSGVO).

10. Warranties

The seller reserve the right for any deviations from the dimensions or construction changes or parts of construction. The same applies correspondingly to all services and other performances. Weight data is provided as exact as possible, but non-binding.

The customer must check the goods immediately for obvious deficiencies. Externally recognizable transport damage must be confirmed immediately by the freight deliverer, according to insurance regulations. The reporting time frame for hidden damage is 3 days from acceptance of the goods. Obvious deficiencies must be reported in writing immediately after receipt of the goods, hidden deficiencies within a week after discovery of the deficiency.

For valid deficiencies, we provide repair or new delivery free of charge, at our option. The warranty period as set forth by law is 6 months. If the warranty provision provided by us fails within a fair grace period, a request for a price reduction or rescission of the contract can be made. Additional warranties and / or claims for indemnities – for what-ever legal reason – are excluded, unless they are based on intent or gross negligence or the explicit written assurance of features.

11. Reservation of ownership

We reserve ownership to all delivered goods subject to reservation until complete payment has been received. The recipient is entitled to resell the goods in the ordinary course of business. Additional disposition (pledge as collateral, transfer by way of security or sale after effected cessation of payments) is not permitted. Garnishments or goods subject to reservation must be reported immediately with provision of the garnishment protocol. If the customer sells or disposes of goods subject to reservation for credit, then the resulting purchase price demand with accrual is considered to be surrendered to us. The customer is authorized to collect these demands until he is banned from doing so due to payment delay or financial collapse. In this case, the customer must submit to us a statement of transfer and a confirmation of reservation of title by third parties.

We reserve the right to changes in size and color as well as technical improvements. All plans, sketches, drawings, illustrations or other documentation remains our property. These items may not be made accessible to third persons without our explicit written permission, nor may they be copied or duplicated.

12. Rescission

We can withdraw from a contract if the customer provided us with incorrect data about his credit worthiness and if we become aware of circumstances which justify doubts about the customer's credit worthiness or the credit worthiness becomes invalid: i.e. dishonored checks or notes, request for affidavit, non-insurability with a credit insurance, etc.) or if a petition for insolvency proceedings is filed.

13. Place of performance and jurisdiction

The place of jurisdiction for all legal disputes arising from the existing legal relationship with the customer – including notes and checks – is the Kreis- und Handelsgericht Wels (district court Wels), Gerichtsstand (court of jurisdiction) AT-4890 Frankenmarkt.

The place of performance for all obligations is our operating site in AT-4880 St. Georgen im Attergau.

14. Written form and invalidity, severability clause

Changes to this contract to be valid always require them to be in written form. Even if one of more sections of this clause or a significant part of these clauses become invalid fully or in part, the effectiveness of the remaining clauses still remains intact.
